| Cobalt | Tonnes | 13 | 18 | (28) | 43 | (70) |

Ore mined increased by 2% from the previous quarter and was 4% higher than in the quarter ended 30 September 2019 because of improved fleet productivity and additional tonnage from Mupani Mine, which is still under development.

While milled volumes, grade and recoveries were stable, 6E metal production in final product decreased by 12% from the previous quarter, during which reported volumes included metal recovered from the treatment of reverts stockpiled during the furnace rebuild.

FINANCIAL

| | September quarter 2020 | June quarter 2020 | % change | September quarter 2019 | % change |
|--|------------------------------|-------------------------|----------|------------------------------|----------|
| Total operating cash costs (US\$000) | 95 631 | 92 683 | (3) | 88 487 | (8) |
| Transfer to closing stocks (US\$000) | (5 623) | (1 240) | 353 | (1 984) | 183 |
| Cash cost of metal produced (US\$000) | 90 008 | 91 443 | 2 | 86 503 | (4) |
| Operating cash costs per 6E ounce (US\$) | 634 | 567 | (12) | 571 | (11) |

Total operating cash costs increased by 3% from the previous quarter, as a result of higher volumes mined and an increase in minerals marketing commission in line with increased revenue. A total of US\$5.6 million was transferred from operating costs to closing stocks during the quarter, compared to US\$1.2 million in the previous quarter, due to the increase in run-of-mine ore and concentrate stocks. The accumulation of run-of-mine ore stocks will continue in preparation for the commissioning of increased concentrator capacity, which is planned for the second half of FY2022. Operating cash costs per 6E ounce increased by 12% from the previous quarter due to a combination of lower matte volumes and higher operating costs.

EXPLORATION

A total of US\$1.2 million was spent on exploration projects during the quarter and a further US\$0.1 million was committed.

COVID-19 UPDATE

The Group recorded three confirmed COVID-19 cases during the quarter. All three employees have fully recovered. Cases were managed in line with the developed COVID-19 code of practice and no operational disruptions were experienced as a result.

COVID-19 prevention measures have since been intensified and employee adaptation to the new COVID-19 procedures has commenced and is progressing well.
